

New Patient Check List:

- Previous MRIs, CT scans, Discograms, X-rays
- Medical records from referring physician
- Imaging reports relevant to problem. (*Please note that when requesting copies of MRIs or other scans and x-rays, be sure to say they are for a physician's office; scans will need to be in a DICOM format*).
- Operative reports if you've had previous spine surgery
- Insurance and/or Medicare information
- Names of physician(s) who you wish to receive report
- List of medications and all vitamins or supplements you take (bring bottles if you can't make a list)

For Worker's Compensation Patients:

- Claim number
- Employer name, address and phone number
- Claims Adjuster name and contact information
- Date of injury
- Previous denials of claim
